

What is a Catalyst Action?

Catalyst Actions are simple but impactful ideas for how ALL of Peoria can contribute to building Peoria through entrepreneurship.

Each month, roughly 3 out of 1,000 Americans start a business... as new businesses grow, those three need the support of the remaining 997 to succeed.

Catalyst Actions are the way we can track, celebrate and leverage our collective action. On the back you'll find a great list of Catalyst Actions you can take today. They vary in time and commitment and we encourage you to start small, but the important part is getting into action! Learn, pivot and iterate!

We try to keep the average Catalyst Action around 15 minutes or less of commitment, however over time we encourage you to take bigger actions and let us know! You can post about your experience on social media using the [#PeoriaForward](#) and tagging E+I accounts in the process. Why tell us? So we can build momentum, track what is working and leverage our collective action.

Remember entrepreneurship is a community sport, we just want to update the score board.
